Artificial Intelligence (AI)

AI Host

A futuristic welcome — guests are greeted by an interactive AI avatar on a digital screen that recognizes, responds, and engages with personalized messages. The AI Host is fully knowledgeable about the event and the host company, speaking naturally to guests about schedules, highlights, and brand values, setting the tone for an unforgettable experience.

Includes:

- AI-powered virtual host with interactive dialogue
- Event & brand-specific knowledge integration
- Customizable branding & personality
- Large display screen setup
- Audio system for live interaction
- PCs, electronics & sensors
- Full setup and dismantle

AI Sketch-to-Image

Guests doodle their own sketch, and AI instantly transforms it into a polished character or artwork they can take home — a fun blend of creativity and technology.

Includes:

- Digital sketch tablets for guests
- AI-powered sketch-to-image software
- Large display screen for live transformations
- Instant digital outputs (QR code/email download)
- Optional branded print takeaways
- Setup, transport & dismantling
- Full-time attendants and support staff

AI SKETCH-TO-IMAGE

Guests doodle a sketch → AI turns it into a polished character/artwork they can take home

AI Photo Booth

Step in, snap a picture, and watch AI work its magic — swap backgrounds instantly (no green screen), transform into a sketch or cartoon, or even become a superhero avatar.

Includes:

- AI-powered photo booth system
- Real-time background replacement & artistic filters
- Large display for live previews
- QR code & email delivery (no prints)
- Branded digital outputs
- Setup, transport & dismantling
- Full-time representatives and technical support

AI Story Generator

Type a few words and let AI craft a fun, personalized short story or comic strip — complete with visuals you can take home or share digitally.

Includes:

- AI-powered story & comic generator
- Touchscreen kiosk for inputs
- Branded story templates
- Digital download via QR & email
- Setup, transport & dismantling
- Full-time representatives and technical support

AI Music Creator

Pick a mood or genre and let AI instantly compose a personalized soundtrack — from upbeat hip-hop to relaxing ambient. Guests can listen on-site and take home their track digitally.

Includes:

- AI-powered music generation software
- Interactive touchscreen kiosk
- Headphones for live listening
- Branded digital track download via QR/email
- Setup, transport & dismantling
- Full-time representatives and technical support

AI Greeting Wall

A smart welcome wall that greets guests personally using face recognition or RFID. Displays their name with a warm, branded message as they arrive.

Includes:

- Face recognition / RFID integration
- Large LED/interactive display
- Customizable greetings & brand visuals
- PC and electronics
- Full-time representatives
- Setup, transport & dismantling

AI GREETING WALL
Face recognition / RFID to greet guests
by name with custom messages

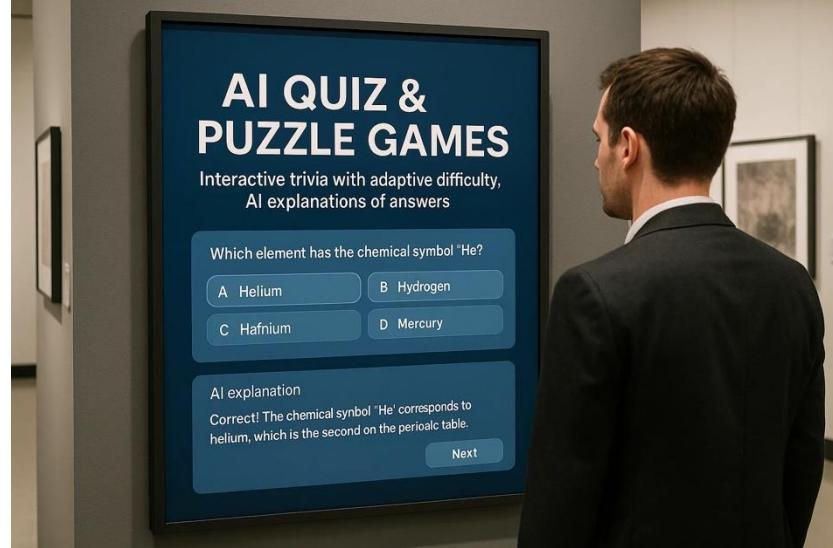

AI Quiz & Puzzle Games

Interactive trivia with adaptive difficulty, where each answer is explained by AI for a fun and educational experience.

Includes:

- Large interactive touchscreen
- Adaptive quiz + puzzle software
- AI-powered explanations
- PC and electronics
- Full-time representatives
- Setup, transport & dismantling

AI Voice Cloning Booth

Step up to the mic and hear your voice instantly transformed into a celebrity or fun character voice, creating a shareable and entertaining experience.

Includes:

- Mic + AI voice cloning system
- Display screen with real-time feedback
- Speaker setup for live playback
- PC and electronics
- Full-time representatives
- Setup, transport & dismantling

AI Smart Vending Machine

A sleek vending unit with a built-in touchscreen — solve fun challenges or answer quick questions to win instant rewards.

Includes:

- Custom smart vending machine with integrated touchscreen
- Interactive quiz/game
- Prize stock control system
- Data capture (name, email, mobile)
- Full branding wrap
- Delivery, setup & dismantling
- Technical staff on-site
- PC & electronics

AI Virtual Stylist

Upload or scan a photo → AI instantly suggests personalized outfits, styles, and accessories.

Includes:

- Touchscreen kiosk with camera
- AI styling/recommendation software
- Full branding wrap
- Data capture integration (name, email, preferences)
- Delivery, setup & dismantling
- Technical staff on-site
- PC & electronics

AI Art Gallery

Step into a digital gallery where creativity meets technology. Guests' photos or sketches are instantly transformed into masterpieces in the style of Van Gogh, Picasso, Warhol, and more and shown in digital photo frames:

Includes:

- AI-powered photo & sketch transformation
- Choice of multiple iconic art styles
- Large live wall display for rotating artworks
- Option to download/share personal masterpieces
- On-site attendants to guide the experience
- PCs, electronics & display
- Full setup and dismantle

AI Digital Twin Avatars

Step into the future as your very own 3D avatar comes to life — mimicking your movements in real time on screen. Guests experience the thrill of seeing their digital twin instantly created and animated.

Includes:

- Real-time motion tracking & avatar generation
- Interactive live screen display
- Multiple avatar customization options
- On-site attendants to guide guests
- PCs, electronics & motion sensors
- Full setup and dismantle

AI Poetry Corner

Enter a name or theme → AI instantly generates personalized poems (haikus, rhymes, or verses).

Includes:

- display screen with AI integration
- Touchscreen/keyboard input for themes
- AI poetry generation software
- Branding and design wrap
- Data capture integration (optional email/QR send-out)
- PC & electronics
- Delivery, setup & dismantling
- On-site technical staff

Augmented Reality (AR)

AR Treasure Hunt

Guests use tablets or phones to explore the venue and uncover hidden AR objects, earning points and rewards.

Includes:

- AR-enabled tablets/phones
- Custom AR treasure hunt app
- Hidden virtual objects & reward triggers
- Branding & themed design
- PC & electronics
- Delivery, setup & dismantling
- On-site technical staff

AR Filters Booth

Step into a world of playful creativity! Guests try branded AR filters in real-time, transforming their faces with fun, futuristic, and event-specific effects. Each experience is shareable instantly, making it a social media magnet.

Includes:

- Custom AR filters branded for the event
- Interactive touchscreen / camera setup
- Instant social media sharing integration
- Event-themed photo & video outputs
- PCs & electronics
- Full setup and dismantle

AR Product Explorer

Guests scan a product and instantly see interactive 3D pop-ups showing specs, features, and storylines.

Includes:

- AR software with custom 3D models
- Product scanning system (tablet/phone)
- Large interactive display
- Branded stand setup
- PC & electronics
- Delivery, setup & dismantling
- On-site technical staff

AR PRODUCT EXPLORER

Guests scan a product → 3D pop-ups how specs, features, or storylines.

AR Mural Wall

A large mural that comes alive with AR animations and stories when scanned.

Includes:

- Custom AR artwork design
- Printed mural wall installation
- AR app/QR scan integration
- Tablets/phones for interaction
- PC & electronics
- Delivery, setup & dismantling
- On-site technical staff

AR Interactive Map

A dynamic venue/brand map where guests scan to reveal hidden hotspots and storylines in AR.

Includes:

- Custom-designed AR map
- Touchscreen/print map with QR markers
- AR app/web integration
- Tablets/phones for scanning
- PC & electronics
- Delivery, setup & dismantling
- On-site technical staff

AR Educational Overlay

Bring real objects to life with AR — scan to reveal hidden details like sustainability facts, brand stories, or production insights.

Includes:

- AR overlay software
- Object tagging & 3D content
- Tablets/phones for scanning
- PC & electronics
- Delivery, setup & dismantling
- On-site technical staff

AR Car/Building Reveal

Guests scan a stage object → AR layers reveal hidden models or animations (like cars, buildings, or structures).

Includes:

- AR reveal software
- Stage object (car/building model)
- Tablets/phones for scanning
- PC & electronics
- Delivery, setup & dismantling
- On-site technical staff

AR Car/Building Reveal: Guests scan stage

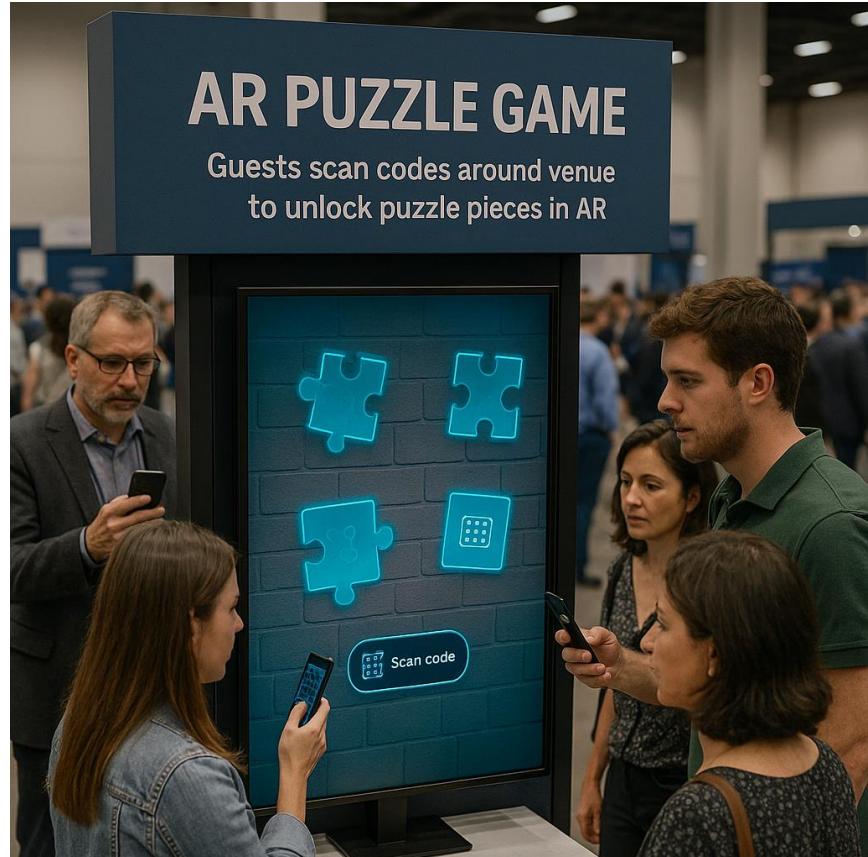

AR Puzzle Game

Guests scan codes hidden around the venue to unlock AR puzzle pieces and complete the final picture.

Includes:

- AR puzzle game software
- QR/NFC code markers
- Tablets/phones for scanning
- PC & electronics
- Delivery, setup & dismantling
- On-site technical staff

AR Fashion Try-On

Step into a virtual fitting room where guests can try on clothes and accessories instantly using AR.

Includes:

- AR fashion try-on software
- Touchscreen display / smart mirror
- Camera + lighting setup
- PC & electronics
- Delivery, setup & dismantling
- On-site technical staff

Virtual Reality (VR)

VR Racing Simulator

Formula 1, golf cart, or custom car racing in immersive branded VR tracks.

Includes:

- VR racing simulator rigs (F1, golf cart, custom car)
- VR headsets & controllers
- Motion platform setup
- PC & electronics
- Branded digital racing environments
- Delivery, setup & dismantling
- On-site technical staff

VR Sports Arena

Step into VR and compete in soccer, tennis, or boxing against AI or live opponents.

Includes:

- VR headsets & controllers
- VR sports software (soccer, tennis, boxing)
- Display screen for audience viewing
- PC & electronics
- Delivery, setup & dismantling
- On-site technical staff

VR City Tour

Take a fully immersive walk-through of a branded city, property, or future project in VR.

Includes:

- VR headsets & controllers
- Custom city/project VR environment
- Display screen for audience viewing
- PC & electronics
- Delivery, setup & dismantling
- On-site technical staff

VR Escape Room

Enter a virtual world and solve puzzles together to escape before time runs out.

Includes:

- VR headsets & controllers
- Escape room VR software
- Display screen for audience viewing
- PC & electronics
- Delivery, setup & dismantling
- On-site technical staff

VR Flight Simulator

Fly planes, drones, or futuristic crafts in immersive branded skies.

Includes:

- VR headset & controllers
- Flight seat with joystick/throttle setup
- VR flight simulator software
- Display screen for spectators
- PC & electronics
- Delivery, setup & dismantling
- On-site technical staff

VR Concert / Show

Step into a virtual arena and experience concerts or exclusive shows in immersive VR.

Includes:

- VR headsets with headphones
- Preloaded concert/show content
- Seating arrangement (stools/chairs)
- Large display screen for branding/visuals
- PC & electronics
- Delivery, setup & dismantling
- On-site technical staff

VR Fitness Games

Get moving with VR dance, boxing, and rhythm-based fitness challenges.

Includes:

- VR headsets & controllers
- Preloaded fitness/rhythm games
- Display screen for audience view
- Safe play area setup
- PC & electronics
- Delivery, setup & dismantling
- On-site technical staff

VR Collaboration Zone

Step into shared VR spaces where attendees meet as avatars, collaborate, and network in immersive environments.

Includes:

- VR headsets & controllers
- Multi-user collaboration software
- Display screen for external viewing
- Seating & safe play area
- PC & electronics
- Delivery, setup & dismantling
- On-site technical staff

VR COLLABORATION ZONE

Attendees enter shared VR spaces to meet avatars of others

VR Heritage Experience

Step back in time and explore culture, landmarks, and history through immersive VR storytelling.

Includes:

- VR headsets & controllers
- Curated cultural/historical VR content
- Display screen for external viewing
- PC & electronics
- Delivery, setup & dismantling
- On-site technical staff

VR Design Studio

Guests step into a creative VR lab where they design cars, clothes, or products and instantly see their creations come alive in 3D.

Includes:

- VR headsets & controllers
- Design software with templates (cars, fashion, products)
- Display screens for live viewing
- PC & electronics
- Delivery, setup & dismantling
- On-site technical staff

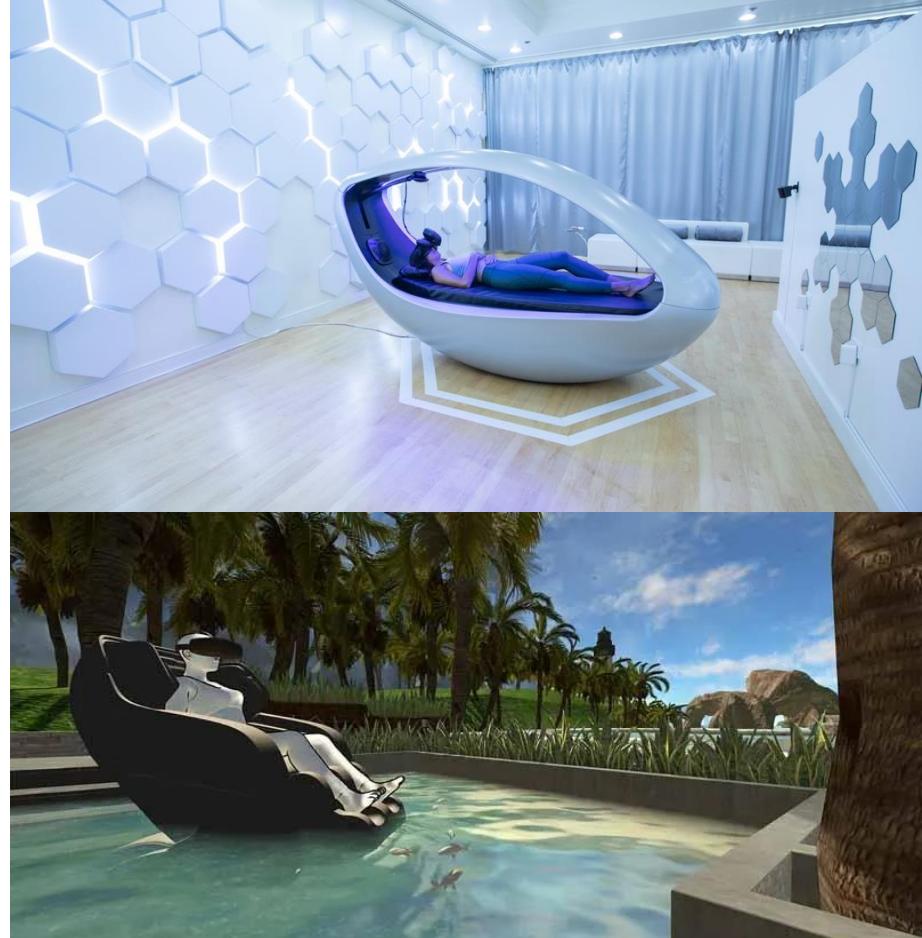

VR Multi-sensory Wellness Sessions

Immersive relaxation pods combining VR, sound, scent, and haptics to deliver calming wellness journeys.

Includes:

- Virtual escapes (beach, forest, space)
- Binaural beats & soundscapes
- Aromatherapy integration
- Haptic massage feedback
- Guided mindfulness & breathing programs

Green Tech Activations

Pedal Power Challenge

Guests cycle to generate energy that lights up a live scoreboard or screen, turning fitness into fun competition.

Includes:

- 2x pedal power bikes with energy sensors
- LED scoreboard/screen display
- PC & electronics integration
- Delivery, setup & dismantling
- On-site staff & technical support

Kinetic Energy Dance Floor

Every dance move generates real electricity that lights up visuals, blending fun, music, and sustainability.

Includes:

- Interactive kinetic dance floor tiles
- LED visual lighting system
- Sound & music integration
- PC & electronics control
- Delivery, setup & dismantling
- On-site staff & technical support

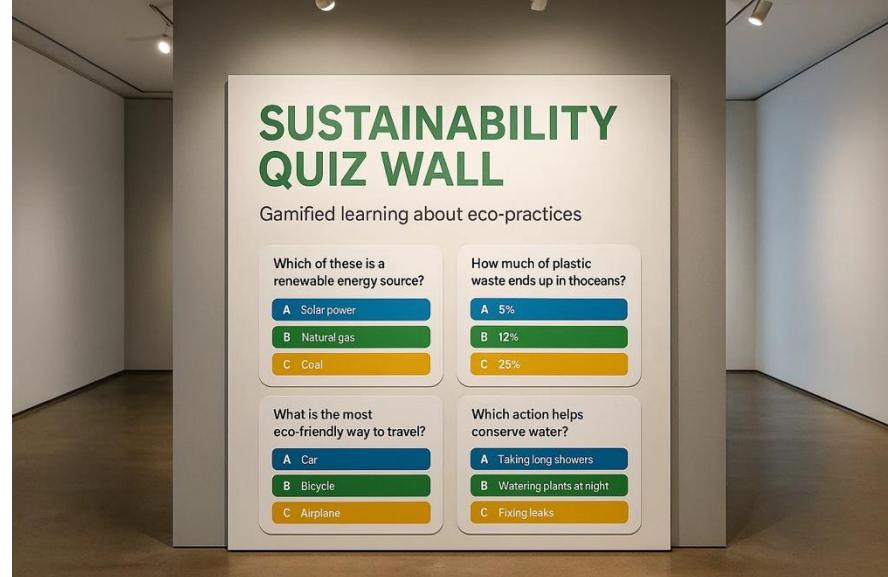

Sustainability Quiz Wall

Gamified learning about eco-practices through interactive trivia.

Includes:

- Large interactive quiz wall
- Eco-themed trivia content
- Touchscreen or button interface
- PC & electronics control
- Delivery, setup & dismantling
- On-site staff & technical support

Solar Charging Lounge

Branded solar-powered stations where guests can recharge devices sustainably.

Includes:

- Solar-powered charging tables
- Multiple charging ports (USB-C, Lightning, Micro-USB)
- Branded signage and panels
- Seating arrangement
- Setup, transport & dismantling
- On-site support staff

Green Tree of Pledges

An interactive LED tree that lights up as guests make sustainability pledges, creating a collective visual impact.

Includes:

- Custom-built LED pledge tree
- Touchscreen kiosk for pledges
- Software for pledge collection & display
- Branded backdrop & flooring
- Setup, transport & dismantling
- On-site support staff

Carbon Footprint Tracker

Guests input their lifestyle choices and instantly see their estimated carbon footprint, along with AI-powered green tips to reduce it.

Includes:

- Interactive touchscreen display
- AI-powered carbon footprint calculator
- Branded kiosk/stand
- Customizable green tips database
- Setup, transport & dismantling
- On-site support staff

Waste Sorting Game

An AR/VR interactive game where guests learn correct recycling by sorting virtual waste into the right bins.

Includes:

- VR headset & controllers
- Large display screen
- Interactive recycling game software
- Branded kiosk/stand
- Setup, transport & dismantling
- On-site support staff

WASTE SORTING GAME

AR/VR interactive game teaching correct recycling

Eco-Vending

Guests deposit recyclable items into the machine, which rewards them instantly with eco-friendly gifts.

Includes:

- Interactive vending machine
- Touchscreen interface
- Gift stocking (eco-friendly items)
- Branding customization
- Setup, transport & dismantling
- On-site support staff

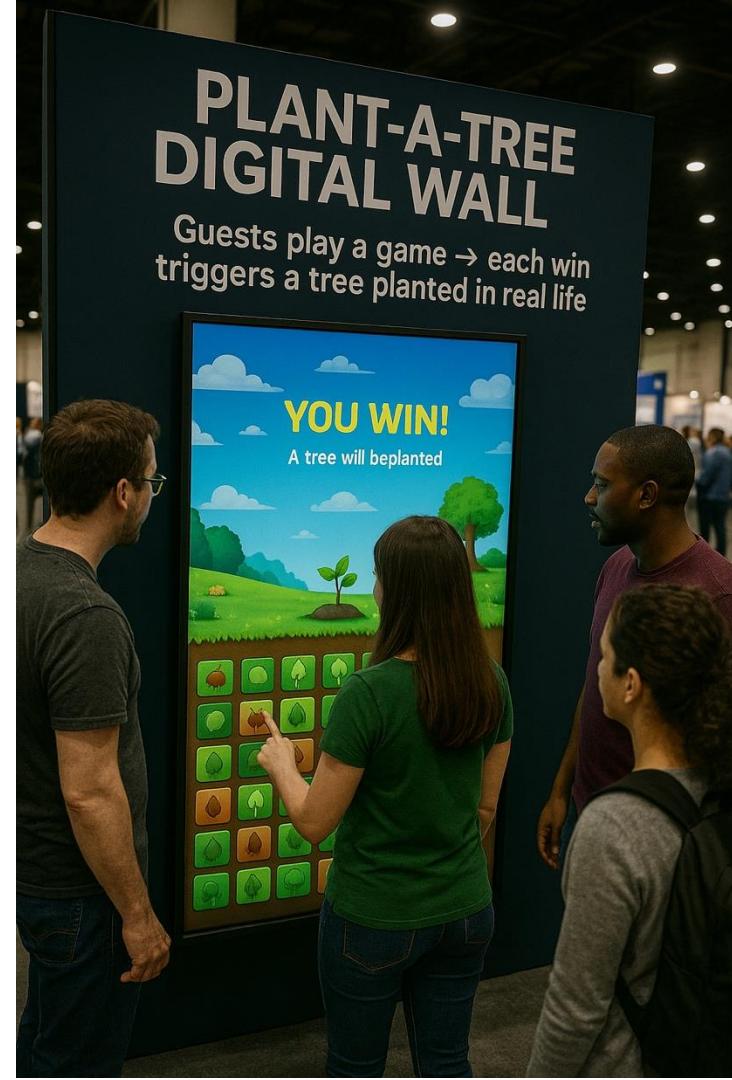

Plant-a-Tree Digital Wall

Guests play fun interactive games on a digital wall, and every win plants a real tree, linking entertainment with real-world impact.

Includes:

- Large interactive digital wall
- Gamified planting mechanics
- Real-time win-to-tree integration
- Branding customization
- Setup, transport & dismantling
- On-site support staff

Wind Tunnel Race

Step inside gamified wind tunnels and compete head-to-head while experiencing the thrill of harnessing wind power.

Includes:

- Dual wind tunnel setup
- Gamified racing mechanics with scoreboard
- Safety harness & staff supervision
- Branding customization
- Setup, transport & dismantling
- On-site representatives

Water-Saving Challenge

Guests interact with a digital screen to see how everyday choices—like shorter showers or full laundry loads—can add up to big water savings.

Includes:

- Large interactive touch screen
- Customizable water-saving scenarios
- Real-time water savings display
- Branding integration
- Setup, transport & dismantling
- On-site representatives

Interactive Green Map

An engaging AR/VR experience where guests explore a digital map showcasing sustainability projects, renewable energy, and eco-initiatives.

Includes:

- Large interactive screen
- VR headset + controllers
- Customizable sustainability content
- Touchscreen/AR tablet option
- Branding integration
- Setup, transport & dismantling
- On-site representatives

INTERACTIVE GREEN MAP

Showcase sustainability projects in AR/VR

Gaming & Esports Activations

Motion-based simulators

High-energy simulators where guests experience racing, golf, cricket, football, and more with immersive motion feedback. Perfect for competitive fun and crowd engagement.

Includes:

- Motion simulator platforms (racing, sports)
- Display screens
- Realistic controllers (steering wheels, clubs, bats, etc.)
- Optional sound system
- Branded setup & décor
- On-site representatives
- Setup, transport & dismantling

Touchscreen Skill Games

Fast-paced interactive games like whack-a-mole, memory match, and trivia that keep guests entertained while testing reflexes and knowledge.

Includes:

- Interactive touchscreen displays
- Branded digital interfaces
- Optional sound and visual effects
- On-site representatives
- Setup, transport & dismantling

Futuristic Arcade Classics

Retro arcade legends like Pac-Man, Pong, and Space Invaders redesigned with neon trims, sleek curves, and modern branding and the games reimagined—keeping nostalgia alive with a cutting-edge futuristic twist.

Includes:

- Custom-built futuristic arcade cabinets
- Reimagined retro games (Pong, Pac-Man, Space Invaders, etc.)
- Branded neon lighting and trim design
- Interactive high-score leaderboards
- Digital integration for player tracking
- Event branding on cabinets & displays

Interactive Projection Games

Dynamic floor and wall projections that transform any surface into an interactive playground. Guests use their hands, feet, or full body movements to engage with projected games and challenges.

Includes:

- Projection-based gaming surfaces (floor + wall)
- Multiple game modes (soccer, fruit slash, puzzles, racing, etc.)
- Motion-tracking sensors for real-time play
- Single or multiplayer options
- Custom branding within the games

Motion Based Gaming

A full-body gaming experience where participants use their physical movements to control the game on large LED screens. Players run, jump, and dodge in real-time to navigate challenges, collect rewards, and compete head-to-head.

Includes:

- Immersive large-screen gameplay
- Motion sensors track running, jumping, and dodging
- Custom software
- Custom branding and themes available
- High-energy, visually engaging attraction for crowds

AR Maze

An interactive adventure where guests navigate a physical maze while unlocking digital layers through augmented reality. Using tablets or smartphones, participants scan QR codes or markers on the walls to reveal hidden clues, solve challenges, and progress through the maze.

Includes:

- Physical maze structure for immersive exploration
- Augmented reality overlays with puzzles, characters, or rewards
- QR codes trigger different interactive experiences
- Multiplayer participation for friendly competition

Photo & Video Activations

360° Video Booth

Guests stand on a platform while a rotating camera captures them from all angles, creating dynamic slow-motion or branded video clips perfect for social sharing.

Includes:

- 360° motorized camera rig with lighting
- Branded overlays, effects & slow-motion options
- Instant QR code & email sharing (no prints)
- Social media-ready video output
- Unlimited videos within the time period
- Event/brand logo integration
- Staff for setup & operation

Green Screen 360 Video Booth

Transport your clients to any environment using our green screen 360 booth and allow them to take home a spectacular out of this world 360 video with sound, visual and other insane features.

- Includes:
- Branded platform and sharing station (with your design)
- 360 Green screen room
- Branded 360 videos (with your design)
- Full time representative
- Unlimited 360 videos within the time period
- Slow motion and other effects
- Setup, transportation and dismantling

Futuristic Retro-Inspired Photo Booth

A sleek, neon-trimmed booth that blends vintage nostalgia with a futuristic design aesthetic. Retro-inspired lighting and structure, paired with AI-driven photo effects, make it both classic and cutting-edge.

Includes:

- Custom retro-futuristic booth design
- Neon accents and modern lighting
- AI-powered filters and effects (retro, futuristic, branded)
- Unlimited photos in time period
- Instant digital sharing via QR code & email
- On-site representatives
- Branded overlays for events

Classic / Retro Photo Booth

A nostalgic booth design with warm wood panels, red velvet curtains, and vintage-inspired lighting. Perfect for evoking the charm of old-school photography while still integrating modern digital printing and sharing.

Includes:

- Retro wood-panel photo booth with curtains
- Classic signage with warm glow
- Touchscreen start & digital camera integration
- On-site representatives
- Unlimited photos in time period
- Instant printouts in retro-style frames
- Branded overlays and themed props
- QR code / email sharing

AI Photo Booth

Guests step in front of the booth and AI instantly transforms their photos with creative effects — from superheroes to fantasy worlds, or branded themes as AI smartly swaps backgrounds and outfits in real time.

Includes:

- Sleek AI-powered photo booth
- Real-time background and outfit changes
- Fun & branded digital themes (superheroes, fantasy, futuristic, etc.)
- Instant QR code & email sharing (no prints)
- Unlimited photos in time period
- On-site representatives
- Custom overlays with event/brand logos

Social Media Mosaic (Digital)

A large LED screen that builds a live mosaic artwork in real-time using guest photos. As attendees upload selfies via social media or event tablets, their images animate into place, gradually forming a branded logo or artwork.

Includes:

- Giant LED display wall
- Real-time photo upload & integration (social hashtags or on-site photo booths)
- Animated placement of images into the mosaic
- Branded final reveal (logo, campaign theme, or message)
- Customizable transitions & effects for visual impact

Social Media Mosaic (Physical)

A giant branded mosaic wall built from photos of guests. As people post on social media or take event photos, their images are printed and they add them to the wall, gradually revealing a larger branded artwork.

Includes:

- Large mosaic wall installation
- Photo capture + instant print system
- Social media hashtag/photo upload integration
- Branded reveal design (logo, message, or artwork)
- On-site staff for assembly & engagement

Classic Photo Booth

Every event deserves to live on not only in memory, but in spectacular pictures. Our photo booths offer the best opportunity to make that happen.

Includes:

- Branded booth (with your design)
- Branded pictures (with your design)
- Full time representative
- Unlimited pictures within the time-period
- Setup, transportation and dismantling

Flip Book Photo Booth

In times where capturing just one frame of an awesome moment isn't enough you can trust our flip book to capture a whole moment and save it in an offline video book which you can watch and rewatch at will.

Includes:

- Branded booth (with your design)
- Branded flip book covers (with your design)
- Full time representative
- Unlimited flip books within the time-period
- Setup, transportation and dismantling

Green Screen Photo Booth

Transport your guests to some exotic or even some interstellar galaxy with them not even moving a muscle, producing amazing pictures which people will definitely keep.

Includes:

- Branded photo booth
- Green screen background
- Multiple backgrounds
- Full time representative
- Unlimited pictures within the time-period
- Setup, transportation and dismantling

Mirror Photo Booth

What if you could have a picture taken of you and you could see how you look as it is taken and can go on and sign on your pictures with your finger? That is the description of a mirror booth, it so cool.

Includes:

- Branded mirror booth (with your own design)
- Branded pictures (with your own design)
- Full time representative
- Unlimited pictures within the time period
- Setup, transportation and dismantling

Magazine Cover Photo Booth

Before users get that big invite to take a picture on the front page of People magazine, indulge them with taking a realistic custom magazine cover photo of them.

Includes:

- Branded photo booth (with your own design)
- Branded magazine cover pictures (with your own design)
- Full time representative
- Unlimited pictures within the time-period
- Setup, transportation and dismantling

Augmented Reality Photo Booth

Allow the guests to take pictures with their favorite celebrities and then print or share them to their emails.

Includes:

- Branded booth (with your design)
- Branded photos (with your design)
- Full Time Representative
- Setup and dismantling
- Unlimited photos within the time-period

Toon Photo booth

Allow your guests to enter the world of their animated heroes by turning them into cartoon characters.

Includes:

- Branded booth (with your design)
- Branded photos (with your design)
- Full Time Representative
- Setup and dismantling
- Unlimited photos within the time period

Fly Around 360 Video Booth

Allow users to carry away with them a power packed 360 video capturing the exact feel, look and even the sound of the moment, this is a definite must have at fun packed events.

Includes:

- Branded platform and sharing station (with your design)
- Branded 360 videos (with your design)
- Full time representative
- Unlimited 360 videos within the time-period
- Slow motion and other effects
- Setup, transportation and dismantling

Physical Magazine Photo Booth

Amazing photos taken within a picturesque magazine cover enclosure.

Includes:

- Branded booth (with your design)
- Branded magazine cover enclosure
- Branded pictures (with your design)
- Full time representative
- Unlimited pictures within the time- period
- Setup, transportation and dismantling

Strip Photo Booth

A collection of multiple photos collected in a strip.

Includes:

- Branded booth (with your design)
- Branded magazine cover enclosure
- Branded pictures (with your design)
- Full time representative
- Unlimited pictures within the time- period
- Setup, transportation and dismantling

Interactive Installations

Projection Mapping Launch

A spectacular 3D-mapped reveal experience where products, vehicles, or stage backdrops are transformed into living canvases of light and motion. Visuals are synchronized with music and sound effects, creating a cinematic, high-energy unveiling that captivates audiences and maximizes brand impact.

Includes:

- High-resolution 3D projection mapping system
- Custom-designed motion graphics & animations
- Synchronized audio soundtrack for dramatic effect
- Stage or product-based mapping (cars, booths, buildings, etc.)
- Multiple reveal sequences (build-up, climax, finale)
- Branding and storytelling integration
- Live show control and technical crew

LED Floors & Motion Walls

Immersive interactive environment where every step or movement triggers dynamic visuals, patterns, or brand effects, creating a futuristic and engaging experience.

Includes:

- High-resolution LED floor panels & motion-reactive walls
- Interactive software with customizable effects
- Branded visual animations & logos
- Sound-reactive integration (optional)
- On-site technician for setup & support

LED FLOORS & MOTION WALLS

Interactive Sliding Screen

An activation where users physically slide panels across a digital wall to reveal hidden content, stories, or brand messages.

Includes:

- Multi-panel touch & motion-sensitive sliding screen system
- Customizable digital content (videos, 3D models, animations, brand storytelling)
- Multi-user support for collaborative interaction
- Optional gamified features (puzzles, challenges, unlock-to-reveal surprises)
- On-site technical support and setup

Smart / Interactive Table

A digital multi-touch table that engages guests with games, learning modules, and branded interactive experiences.

Includes:

- Multi-touch screen surface
- Interactive games & quizzes
- Custom branded content
- Multi-user collaboration features

Touch & Throw

Guests interact with content on a touch console and “throw” it onto a large curved LED wall for an immersive group view.

Includes:

- Touchscreen control console
- Large display screen
- Real-time data visualization
- Interactive maps, media, and content sharing
- Multi-user collaboration and presentations

Strength / Grip / Fitness Challenges

Guests test their endurance and physical ability in fun, competitive mini-challenges like the Beat the Bar hang time, grip tests, or push-up counters. A timer or digital leaderboard tracks performance, sparking excitement and crowd engagement.

Includes:

- Branded challenge rig/station (e.g., pull-up bar, grip machine, push-up tracker)
- Digital timer & live leaderboard
- Safety mats & attendants for supervision
- Custom branding on challenge walls and screens
- Optional prize giveaways for top performers

Touch & Tap Speed Challenges

Fast-paced interactive games where guests test their reflexes and coordination by tapping targets on large touchscreens. Each round is timed, and scores are instantly displayed to encourage friendly competition.

Includes:

- Branded interactive touchscreens
- Multiple challenge modes (speed tap, reaction test, pattern match)
- On-screen countdown timer & scoring system
- Live leaderboard integration (optional)
- Attendant for guest assistance

Balance Games (Foot Balance Controllers)

Guests stand on motion-sensitive balance boards (skate / surf boards etc) to control vehicles, characters, or objects on-screen. Leaning, tilting, or shifting weight steers the gameplay, turning balance into the ultimate controller.

Includes:

- Interactive balance platforms with motion sensors
- On-screen racing, surfing, skiing, or obstacle courses
- Real-time score & speed tracking
- Single or multi-player modes
- Branding opportunities on the balance boards and screen

Reaction Games (Batak Pro, Quick Catcher etc)

Guests test their endurance and physical ability in fun, competitive mini-challenges like the Beat the Bar hang time, grip tests, or push-up counters. A timer or digital leaderboard tracks performance, sparking excitement and crowd engagement.

Includes:

- Branded challenge rig/station (e.g., pull-up bar, grip machine, push-up tracker)
- Digital timer & live leaderboard
- Safety mats & attendants for supervision
- Custom branding on challenge walls and screens
- Optional prize giveaways for top performers

Digital Mazes

Guests guide a ball through a digital maze table by tilting and maneuvering the surface. The goal is to reach the end as fast as possible while competing against the clock and other players on the live leaderboard.

Includes:

- Electrical maze platform
- Motion-sensitive controls for real-time gameplay
- On-screen leaderboard with times and rankings
- Branding opportunities on the maze surface and leaderboard

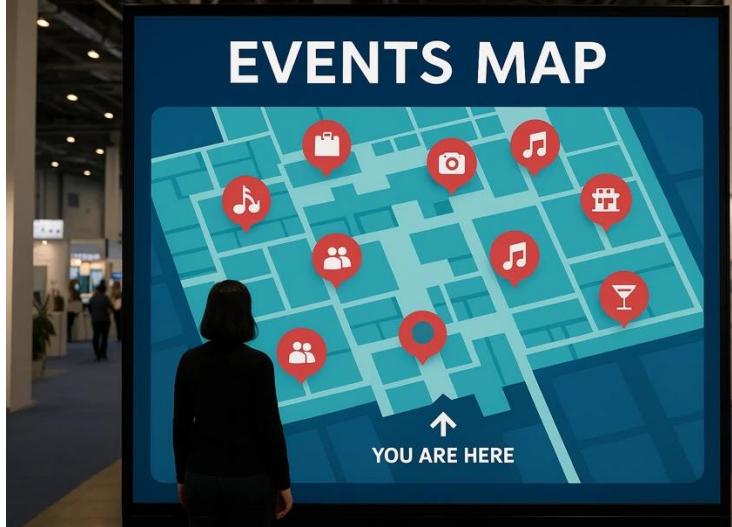

Interactive Event Map

Guide guests effortlessly with a dynamic digital map that highlights stages, exhibitors, food, and experiences. Easy navigation, real-time updates, and branded touchpoints make exploring your event seamless and engaging.

Includes:

- Large interactive touchscreen
- Custom branded floor plan
- Icon-based navigation (stages, F&B, activations)
- “You Are Here” positioning
- Real-time updates & sponsor highlights

Creative & Customization Zones

On-demand t-shirt / merch printing

Guests select graphics, logos, or messages and watch as their custom T-shirt or merchandise is printed live at the event. A perfect takeaway that doubles as a branded keepsake.

Includes:

- Live heat-press T-shirt printing stations
- Customizable templates and brand artwork
- Options for T-shirts, tote bags, or other merch
- Instant printing for fast guest turnover
- Staff support for setup and design assistance
- Branding opportunities on the merch and booth setup

AI Sketch-to-Image

Guests doodle their own sketch, and AI instantly transforms it into a polished character or artwork they can take home — a fun blend of creativity and technology.

Includes:

- Digital sketch tablets for guests
- AI-powered sketch-to-image software
- Large display screen for live transformations
- Instant digital outputs (QR code/email download)
- Optional branded print takeaways
- Setup, transport & dismantling
- Full-time attendants and support staff

Digital Graffiti Walls

Guests unleash their creativity by using digital spray cans to paint, tag, and design on a giant interactive wall. The setup replicates the feel of real graffiti but in a safe, mess-free, and fully customizable digital format.

Includes:

- Large digital LED graffiti wall
- Interactive spray cans with pressure-sensitive controls
- Preloaded stencils, logos, and templates for easy use
- Save, print, or share digital artwork instantly
- Custom branding options within the graffiti designs

AR Colouring Station

Guests color printed templates with markers, then scan them into the AR station where their creations instantly come to life in 3D on a big screen.

Includes:

- Printable coloring templates (cars, animals, buildings, logos, etc.)
- Markers and coloring supplies for participants
- AR scanner to digitize the artwork
- Large display screen showing animated, colored models
- Branding integration on templates and final animations

AI Music / Beat Maker

Guests step into the future of sound creation with an AI-powered music station. Using simple controls, they can compose custom beats, remix tracks, or generate full songs with the help of artificial intelligence.

Includes:

- Interactive music workstation
- AI software for generating beats, melodies, and remixes instantly
- Headphones for live monitoring
- Large display screen for spectators to follow the music creation process
- Option to save, download, or share tracks instantly
- Branding and customization with themed sound packs or audio tags

Educational & Awareness Zones

Health & Wellness challenges

Guests explore fun and engaging activities focused on both body and mind. Mental health games help with stress reduction and mindfulness, while fitness interactives encourage movement, energy, and teamwork.

Includes:

- Mental Health Games: Relaxing digital activities for mindfulness and stress awareness
- Fitness Interactives: Touch- and motion-based challenges to test agility and reflexes
- Wellness Challenges Wall: Inspiring tips like walking more, eating healthy, getting enough sleep, and reducing stress
- Digital leaderboards & progress tracking
- Custom branding opportunities on stations and screens

Interactive Vaults

Guests must defend the vault from being breached by answering rapid-fire questions correctly. Each correct answer keeps the vault securely locked, while hesitation or wrong answers cause the vault door to start opening. A full opening signals a data breach — and a loss. The challenge is to keep the vault closed for as long as possible and climb the leaderboard.

Includes:

- Immersive vault-themed structure
- Touchscreen console for trivia and puzzle inputs
- Real-time animations: vault lock tightening with correct answers, vault door opening on errors
- Timed defense gameplay with escalating difficulty
- Leaderboard tracking longest defenses and top players

Sustainability education games

Guests learn eco-friendly habits through interactive digital games. From sorting items into the correct waste bins to competing in recycling speed challenges, participants practice sustainability in a fun and gamified way. Points are earned for accuracy and speed, encouraging eco-awareness while engaging in friendly competition.

Includes:

- Touchscreen / motion / controller-based kiosks with interactive sorting and recycling games
- Real-time scoring and accuracy tracking
- Timed challenges for competitive play
- Bright visuals and animations of waste streams and recycling processes
- Educational prompts explaining correct choices and sustainability facts

Coding and Engineering Workshops

Hands-on STEM zones where participants learn the fundamentals of coding, robotics, and engineering through fun and interactive activities.

Includes:

- Coding Stations: Guided tutorials on Python, Scratch, or Arduino
- Robotics Labs: Build and program robots, cars, or drones
- Engineering Challenges: Circuit building, sensor integration, and IoT projects
- Creative Projects: Teamwork to solve real-world problems using code + hardware
- Scalable for all ages: Simplified versions for kids, advanced modules for teens/adults

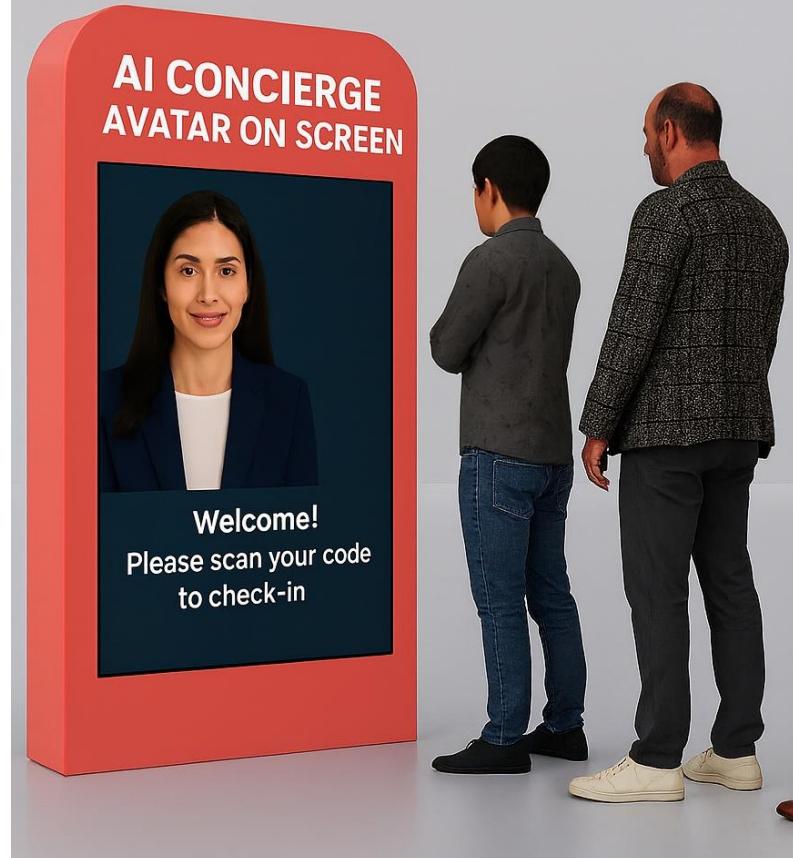

Welcome Interactions

AI Concierge

Our AI Concierge Avatar greets guests on a sleek 65-inch screen, instantly checking them in with a as they type their details on the touch screen.

Bilingual, interactive, and engaging, it delivers a seamless registration experience while adding a futuristic wow-factor to your event entrance.

Face Recognition Check-in

Our Face Recognition Check-In instantly identifies visitors, prints their badge, and greets them by name with a personalized welcome — delivering a seamless, touch-free, and futuristic registration experience.

RFID Check-in

Guests receive a personalized RFID card before the event to use as their access card.

A simple tap on the reader instantly checks them in, while the on-screen avatar greets each person by name with a custom welcome message.

Smooth, fast, and memorable — making every guest feel like a VIP.

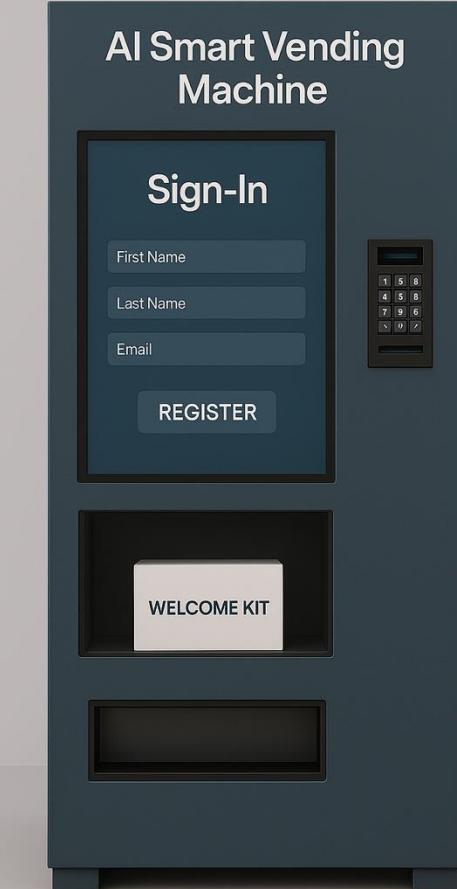

AI Smart Vending Machine Registration

Turn sign-in into an experience. Guests walk up to a sleek, AI-powered vending machine, enter their details, and instantly complete registration.

As a reward, the machine dispenses a custom welcome kit — blending seamless check-in with a fun, futuristic touch.

Motion-Sensitive AI Greeting Wall

Make every arrival unforgettable. A massive LED wall which has beautiful graphics running on it, if it senses a person it turns into an AI face.

Instantly greeting them with a personalized “Welcome to the event”.

The person can register themselves and the AI wishes them well using their name.
